

Basic Skills Assessment Policy

The Workforce Innovation and Opportunity Act (WIOA) focuses on serving "individuals with barriers to employment" and seeks to ensure access to quality services for these populations.

WIOA states that recipients of public assistance, other low-income individuals, and individuals who are **basic skills deficient** must receive priority for individualized career services and training services.

For purposes of WIOA, Basic Skills Deficient (BSD) means, an individual:

- a. Who is a youth, that has English, reading, writing, or computing skills at or below the eighth (8th) grade level on an accepted standardized test; or
- b. Who is a youth or adult, that is unable to compute or solve problems, or read, write, or speak English, at a level necessary to function on the job, in the individual's family, or society.

Determining basic skills deficiency during intake assists in qualifying customers for eligibility, allows for quality referrals, and can determine program effectiveness.

Determination of WIOA Youth eligibility based on the BSD barrier: A formalized assessment will be administered to evaluate the youth's strengths as well as any areas of deficiency in the academic skills of Reading, Math and Language. One or more of the following assessments may be utilized: Test of Adult and Basic Education (TABE), ACT, HESI (Health Education Systems, Inc.), Wonderlic, TEAS (Test of Essential Academic Skills), CASAS (Comprehensive Adult Student Assessment System), WorkKeys and the Accuplacer. These assessments may be administered by the region's AEL programs, the client's chosen training provider or workforce staff.

Assessment results are utilized to document basic skills deficiencies for an eligibility barrier or to determine the youth's ability to be successful in an academic program. Reasonable accommodation for the testing process will be available, if necessary, for individuals with disabilities. Previous basic skills assessment results may be used if the assessment was conducted within the previous six-month period of the eligibility determination date.

Determination of Basic Skills for the Objective Assessment (OA):

WIOA requires that every youth completes an objective assessment to evaluate the basic skills, occupational skills, prior work experience, employability, interests, aptitudes, supportive service needs, and developmental needs of the participant. The objective assessment must identify the career pathway for the youth participant and is used to develop a corresponding Individual Service Strategy (ISS).

The requirement to review basic skills as part of the objective assessment process is not the same as conducting a basic skills assessment for eligibility determination for the basic skills deficient barrier or as conducting a basic skills assessment for determination of an educational functioning level gain within the measurable skill gains indicator. If using the basic skills deficient component of WIOA Youth eligibility in WIOA (3)(5)(A), programs must use a generally accepted standardized test which DOL defines as an approved test from the list of tests the Secretary of Education determines to be suitable for use in the National Reporting System for Adult Education.¹

The Jefferson Franklin Consortium has adopted a screening tool to help identify if an individual is basic skills deficient. The Basic Skills Screening Tool is required for all WIOA youth applicants. The Basic Skills Screening Tool below will help assess the youth for the required basic skills section of the OA and help determine if additional testing is needed to determine “basic skills deficient”. The Basic Skills Screening Tool must not be used to determine a youth’s educational needs.

A youth who is unable to complete the screening tool without assistance or answers “No” to one (1) or more questions must automatically be assessed as basic skills deficient using at least one of the approved assessments identified in the previous section.

A youth who can complete the screening tool without assistance and answers “Yes” to all the questions has satisfied the basic skills requirement of the OA. However, for youth entering training services additional assessments may be used to determine the appropriateness of the training program.

Determination of BSD for Adult Priority of Service:

The Basic Skills Screening Tool will help identify if an individual is basic skills deficient for the purposes of priority of service and referrals for Adults or Dislocated Workers. The screening tool should be given prior to conducting any assessment test. The tool is for identification of priority of service and for referral purposes.

Anyone unable to complete the screening tool without assistance or answers “No” to one (1) or more questions must automatically receive a referral for adult basic education services. Any WIOA Adult participant should receive priority of service as having a basic skills deficiency.

EFL

If measuring EFL gains under the measurable skill gains indicator, the State will only accept this measure for participants in the WIOA Title II Adult Education and Literacy (AEL) program overseen by the Department of Elementary and Secondary Education. AEL-staff must administer the basic skills assessment (TABE), Job Center staff must accurately enter the scores into the EFL tab in the statewide electronic case-management system and retain documentation of the scores. See current OWD Policy on Measurable Skill Gains.
